CZERNOWITZ IS AGAIN IN HANDS OF THE TEUTONS

Galician Town Has Changed Hands Ten Times Since War Started

RUSSIANS HELD IT SINCE SUMMER OF LAST YEAR

Weather Still Interferes With Further Operations In the Belgian Sector

(Associated Press Telegram)
Vienna, Aug. 3, via Amsterdam.—Austro-Hungarian troops have entered Czernowitz, the capital of the crown land of Bukovina.

Petrograd, Aug. 3.—Kimpolung, in southern Bukovina, has been evacuated by the Russians, the war office announced today. The Russians are now engaged with the Austro-German forces on the River Bystritsa. Between the Dniester and the Pruth, the Russian retreat is continuing.

Czernowitz, entered by the Teuton forces, has been the scene of some of the most bitter fighting of the war and the Bukovina capital has changed from Teuton to Russian hands altogether ten times.

Czernowitz was first captured by the Russians from the Austro-Hungarians on September 4, 1914, only to be evacuated a few weeks later. In November of that year the Russians again occupied the city and held it until February, 1915. In the following month the Russians again returned to the attack and after a terrific battle stormed the capital and drove the Austrians out. This time the Russians held the position for only two weeks. Twice in January, 1916, the seat of the crown land changed hands and in June of that year it was again captured by the Russians and held until the present.

Czernowitz is situated on a hill south of the River Pruth and is about 140 miles southeast of Lemberg, the capital of Galicia. Before the war it had a population of about 70,000.

British Front in France and Belgium, Aug. 3.—Artillery duels of considerable intensity continued last night along the battle front in Flanders, but generally speaking the German guns were less active this morning and the situation was unchanged. At daybreak the Germans concentrated a heavy gunfire on the newly-acquired British positions in the area south of the Ypres-Menin road.

A protracted rain still is falling, rendering infantry operations of all (Continued on Page 2, Col. 4.)

ITALIAN PLANES DROP BOMBS ON AUSTRIAN ARSENAL

(Associated Press Telegram)
Rome, Aug. 3.—Large squadrons of Italian airplanes yesterday effectively bombed the arsenal and military works of Pola, the chief naval station of Austria-Hungary on the Adriatic, according to an official statement made today by the Italian war department.

4800 MORE WILL BE ADMITTED TO TRAINING CAMPS

(Associated Press Telegram)
Washington, Aug. 3.—An increase of 30 per cent in the number of candidates to be admitted to the second officers reserve training camps opening on August 27 has been ordered by the war department. Sixteen thousand were to have been admitted. The number has been raised to 20,800.

AMERICAN SOLDIERS GET MAIL WITHOUT DELAY

Washington, Aug. 3.—American soldiers at the front now are receiving their mail without interruption as a result of the establishment of the United States postal agency in France. Postmaster General Burleson announced today.

A corps of experienced workers, under the direction of Marcus H. Bann, is handling mail matter at the base postoffice and at branches established at Paris, the training camps, and at the American port of disembarkation.

At present all letters sent to or received from soldiers must bear the regular domestic rate of postage. The postmaster general, however, has asked congress to grant troops free postage for letters sent home. The agency, in addition to receiving and transmitting letters and parcel post, is doing a money-order business. The French government recently promulgated an order admitting free of duty all parcel post matter for American troops.

FERGUSON OUT FOR THIRD TERM

Gov. James F. Ferguson.

Indicted on nine counts charging mishandling of public funds, Gov. James F. Ferguson of Texas has launched his candidacy for a third term in the state capital. Accepting the indictments of himself and three other state officials as a challenge from political opponents, he has abandoned his intention to be a candidate for the United States senate and decided to go to the people of Texas on the issues involved.

ZIMMERMANN KNEW CONTENTS OF NOTE WHICH BROUGHT WAR

(Associated Press Telegram)
Washington, Aug. 3.—Germany had possession of Austria's ultimatum to Serbia 14 hours before it was delivered to Belgrade, according to positive information which has reached officials here and which was made public today for the first time.

It was stated that Former Foreign Secretary Zimmermann admitted this himself when pressed very closely as to Germany's foreknowledge of the action of her ally which precipitated the European war.

Germany has maintained consistently in all her public documents that she was not consulted by Austria, whom she had already practically denied Serbia's independence, and that she did not even have knowledge of the step.

Foreign Secretary Zimmermann's admission, however, is interpreted here to show that Germany had full knowledge of the note in time to stop action on it if she felt it essential. Her inaction, however, is felt to have proved her an accomplice of Austria, whom she had already told she would support in any decision she might make.

The admission was stated here to have been made when Zimmermann was pressed very closely as to Germany's knowledge of the Austrian Ultimatum. For a considerable time, it was stated, he maintained Germany had known nothing about it, but finally, when certain information and facts were presented, Zimmermann admitted Germany had had the text for fourteen hours before its delivery. This, he seemed to think, was a purely negligible time which did not allow the possibility of action. This fact fits in very closely with the recent statements, first advanced by Deputy Cohn in the Reichstag and since adopted by the allied governments, that German and Austrian leaders held a war council at Potsdam on July 5 in which it was practically decided to plunge Europe into conflict. The interpretation placed on this council has been that Germany had full knowledge of all Austria's plans and stood unreservedly behind her.

Germany, however, has repeatedly denied the holding of such a conference.

I. W. W. DEMONSTRATION PLANNED FOR FUNERAL OF FRANK H. LITTLE

(Associated Press Telegram)
Butte, Mont., Aug. 3.—The funeral of Frank H. Little, national executive board member of the Industrial Workers of the World, who was lynched Wednesday, will be made the occasion for a big demonstration next Sunday if the authorities will permit the striking miners to march according to plans announced today by Tom Campbell, head of the Metal Mine Workers Union.

Burial of Little will be either in Chicago or Fresno, Cal., depending on the wishes of relatives. Excitement as a result of the lynching has largely subsided and there is little of the tense feeling which was present on the day of his death.

While several investigations are in progress looking to the apprehension of the men who took Little's life, Attorney General S. C. Ford, who spent yesterday here, announced "that it is very improbable that the men will ever be brought to justice."

CHARGE MILITIA AIDED RIOTERS AT E. ST. LOUIS

Federal Investigation is Requested By Illinois and Missouri Congressmen

THREATS MADE TO BURN BIG ALUMINUM PLANT

East St. Louis Business Men Raise Fund For Additional Policemen

(Associated Press Telegram)

Washington, Aug. 3.—Federal investigation of the race riots in East St. Louis, Ill., on July 2, by a congressional joint committee, was urged before the House rules committee today by Representative Rodenberg of Illinois and Dyer of Missouri and a delegation of negroes.

"The plain unvarnished truth," said Mr. Rodenberg, "is that civil government in East St. Louis collapsed and the ferocity, brutality and viciousness of the mob that committed the outrages began a description. The police department joined the rioters and helped to shoot negroes. I am told the colonel in charge of the militia took no steps to handle the situation. A man in whose word I have confidence told me of a person who had been shot by a militiaman. Maurice Joice, who I think will be the next federal judge of that district, told me that a negro started to lead a group of eight militiamen for protection, that they pointed their bayonets at him and he fled back to the mob which shot and killed him and Joyce himself had a narrow escape from being shot."

Representative Foster, of Illinois, a member of the committee, announced that he today received a telegram from the governor of Illinois, saying he was making a trip to East St. Louis to investigate the riot, and that he pointed the bayonets at him and he fled back to the mob which shot and killed him and Joyce himself had a narrow escape from being shot."

Mr. Rodenberg recommended that investigation be made by a federal court through a special grand jury empaneled for the purpose, and he especially wanted Judge Landis to conduct it. The department of justice sent a representative to confer with Judge Landis but the latter took the view that it was questionable whether, as an infraction of state law, the riot was a proper subject for judicial inquiry.

Mr. Rodenberg contended that congressional action would have a tremendous moral effect on the situation. Threats within the last few days to burn the \$10,000,000 plant of the American Aluminum Company at East St. Louis, which comes under the aluminum in the manufacture of airplanes and other purposes at the various plants of the company, were disclosed by Mr. Rodenberg. Explaining that there were only two companies of regular troops left in East St. Louis, Mr. Rodenberg said that the aluminum company's manager had received threats that as soon as the two companies were withdrawn the plant would be burned.

He said the city government had very little money and had only sixty policemen at the time of the riot but that the manufacturers had raised a fund of \$105,000 to provide better police protection.

FEARING ARREST AS SLACKER WOMAN DROWNS HERSELF

Toledo, O., Aug. 3.—Authorities here believe that the army draft examinations, just beginning here, was the cause of the suicide of "Dr. Samuel Ackerman," whose body found here yesterday, was discovered by an undertaker to be that of a woman.

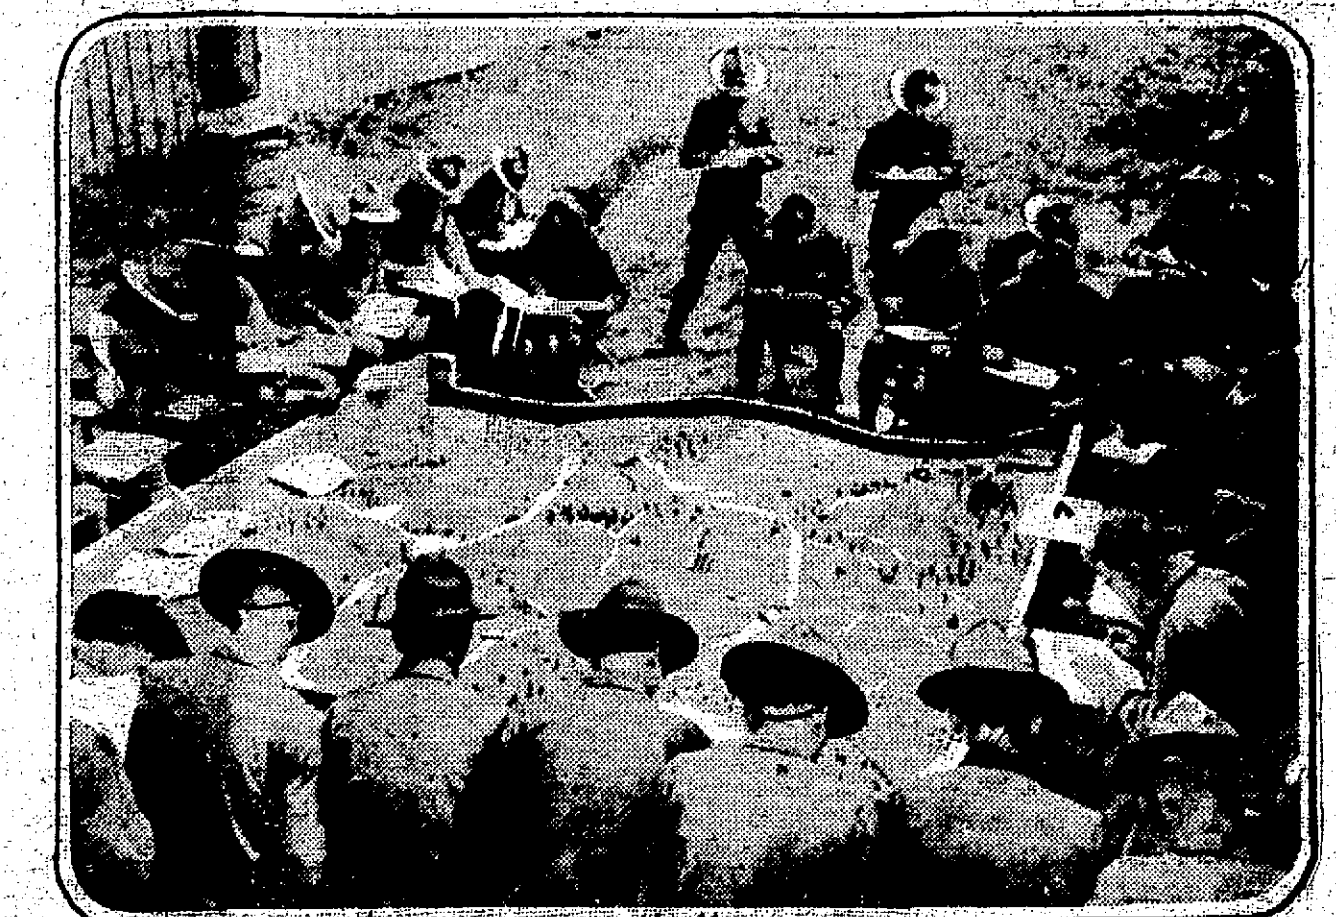

Detectives investigating the conscription registration record found that "Dr. Ackerman," 28, within the prescribed age, failed to register. Arrest and physical examination would have revealed the sex secret, maintained for many years. The body was found floating in the Maumee river yesterday. The first physical examination of registered men were then in progress. The authorities have ascertained that several years ago even then posing as a man, Ackerman married. The wife soon obtained a divorce.

CUT BEER TAX AND DOUBLE IT ON WINE TAX BILL IS READY

Washington, Aug. 3.—The war tax bill, increased from \$1,672,000,000 to approximately \$2,002,000,000 virtually was completed today by the Senate finance committee and will be reported to the Senate tomorrow or Monday.

In preparing the final draft for the printer the committee reduced the tax on beer by 25 cents a barrel to \$1.50 a barrel in addition to the tax under the present law and increased rates on wines to about double the present taxes and estimated to yield \$17,000,000 additional.

EMBRYO FLYING MEN LEARN HOW TO SKETCH ENEMY TERRAIN

Airplane observers making topographic sketches of enemy terrain from camp stools. One of the most important duties of the airman in war is to sketch the terrain in the vicinity of the enemy front. This requires considerable skill, which is attained by practice. Photo shows student officers at one of the training camps grouped about an improvised battlefield, over which they are supposed to be flying and making maps.

GERMAN PEOPLE SHOULD END REIGN OF MILITARY GROUP

(Associated Press Telegram)

Copenhagen, Aug. 3.—The Vossische Zeitung, under a Stockholm date prints an interview given by Camille Huysmans, secretary of the International Socialist Conference containing hard words against Germany. M. Huysmans is quoted as saying that the Reichstag resolution remains a scrap of paper unless converted into decisions and declares that tangible results are not expected by the Socialist conference unless German democracy masters courage to put an end to the military reactionary autocracy by thoroughly democratizing parliament. Austria and Russia are ready to come to an understanding, M. Huysmans declared, and the French parliament already has declined "alleged annexation designs" by which the German government tried to make capital to check the peace current. It depends solely upon Germany to show its good will, he said, or bear the entire responsibility for the fourth winter campaign.

M. Huysmans praised Arthur Henderson highly and said that participation of ministers like Henderson, Albert Thomas and M. Tseretelli in the Socialist conference might bridge the gap between the recommendations of the conference and the action of the government.

WILL NOT ABOLISH COLLEGE SPORTS DURING THE WAR

(Associated Press Telegram)
Washington, Aug. 3.—College athletics will be continued during the war, according to a decision of the National Collegiate Athletic Association, in conference here. Representatives of most of the eastern and western colleges participated.

The action was prompted mainly by the recommendation of Secretary of War Baker who, in addressing the delegates, urged that athletic competition be encouraged to fit college men for military service.

All of the larger schools, except Yale, Harvard, Princeton, and possibly Virginia, will be represented this fall in intercollegiate football. The latter institutions are said to lack material.

The conference committee adopted resolutions recommending that all resolutions recommending that all sports, that pre-season coaching and training tables be abolished, and that eligibility standards be not relaxed.

Prof. C. D. Coons of Denison University, attended the conference, representing Denison. He has been identified with Denison athletics as faculty advisor for several years.

KAISER GRANTS NEW HONOR TO HINDENBURG

(Associated Press Telegram)
London, Aug. 3.—A Copenhagen dispatch to Reuters, Limited, contains the following message telegraphed by Emperor William to Field Marshal von Hindenburg: "It is a great joy to me, my dear field marshal, at the conclusion of the third year of this mightiest of all wars in which you incessantly and with brilliant strategy and art have defied the enemy's superior forces and cleared the way for our armies to victory to express anew to you my inexhaustible thanks. I grant you the cross and star of the high command of any royal orders of the house of Hohenzollern. The badges will be posted immediately."

WAR IS GOD'S LAUNDRY SAYS CHICAGO MOTHER

(Associated Press Telegram)
Chicago, Aug. 3.—This war is "God's laundry," Mrs. Mary J. Lamb who has given three of her four sons to the army and navy, said in a letter which was before a local exemption board today.

"I asked for a special permit for my 16 year old son who was in college and enlisted him in the marine corps on April 1," said Mrs. Lamb. "Another son is also in the marine corps and a third in the army."

"A fourth son's greatest sorrow is that he is too young and only a quartermaster in the Seranton Cadets of Notre Dame University."

"It makes me disgusted with motherhood to hear many selfish mothers voice their terror. No mother loves her family more than I do, but I look upon this war as God's Laundry."

RANDALL DECLARES DRYS ARE TRICKED BY LIQUOR LOBBY

(Associated Press Telegram)

Washington, Aug. 3.—Representative Randall of California, the only prohibition member of congress, issued a statement yesterday declaring that "the friends of national prohibition have been flimflammed by the liquor lobby in the constitutional amendment adopted in the senate yesterday." He added that "a great justification" was held by liquor representatives in a Washington hotel that night and that a well-defined rumor had sprung up that the six-year clause added on Senator Harding's motion was really written by the brewers' attorneys.

"The joker is not in the six-year handicap itself," said Mr. Randall, "though that is without a single precedent in history. The Harding clause provides that this article shall be inoperative unless ratified within six years." The impression is that the prohibition amendment would not become a part of the constitution unless so ratified. The fact is it will become a part of the constitution if ratified after the time limit but will be inoperative if it is not ratified within six years of the time the amendment was adopted.

The resolution to submit the proposal to the states was put out of the house program for the present session and will not come up until the regular session in December.

SHERIFF SHOT BY SLACKERS; POSSES ARE AFTER THEM

(Associated Press Telegram)
Oklahoma City, Okla., Aug. 3.—A band of thirty alleged draft resisters who are believed to have shot Deputy Sheriff J. W. Cross near Wewoka yesterday, and to have fired or dynamited the "Frisco" bridge between the South Canadian river between Francisco and Atla, are reported to have taken refuge in the brush south of Sasakwa. Poses have started to capture the band.

NEW YORK GUARD PARADE.

New York, Aug. 3.—New York City will probably say farewell to thousands of National Guardsmen going to the training camp at Spartanburg, S. C., next Thursday. It is estimated that 30,000 soldiers will march.

AMERICAN AGENTS TALKED DISSENSION AMONG AUSTRIANS

(Associated Press Telegram)
Amsterdam, Aug. 3.—Count Von Reventlow in an article in The Tages Zeitung, referring to Arthur J. Balfour's speech in the house of commons in which he spoke of the nationalities of Austria-Hungary determining their own course of future developments tells his readers of widespread machinations of American agents in Austria-Hungary started by former Ambassador Pendergast long prior to the Austro-Hungarian breach.

The article says that Americans who left Austria soon after the breach talked confidently to neutrals of impending complete political isolation of Germany in Austria, while in Hungary also secret organization of the entente nations and America would bear fruit."

Both predictions have been fulfilled, says Count Von Reventlow who adds:

"How long the former ambassador to Constantinople, Elkus, remained in Vienna or whether he is still there we do not know." Balfour's idea, says Count Von Reventlow is the dissolution of the Austro-Hungarian monarchy which squares exactly with the aims of the Czech Poles.

EXEMPTIONS FOR PHYSICAL DEFECTS SAME AS CIVIL WAR

(Associated Press Telegram)
Washington, Aug. 3.—Early and scattering reports from local boards do not indicate any increase in physical exemptions from the army draft over the average of 25.77 established in 1913.

Provost Marshal General Crowder said today that while no definite conclusion could be reached as yet, there was good reason to believe on the face of first returns from local boards that there would be no substantial increase in the proportion of those found physically unfit.

Results of the next steps in the selection procedure, the weeding out of men with dependent families also are not clear. It may be that further supplemental rulings will be necessary to give the local boards the general policies to be pursued to reach a decision in each case. The question of marriage to avoid military duty has already been passed upon and that type of slacker will meet with a cold reception at the boards' hands. It has been made clear to the board members that they are the judges of whether a registered man sought the shelter of matrimony to avoid military service and must act accordingly.

GUNBOATS IN RIVER SINCE CIVIL WAR, ARE REMOVED

(Associated Press Telegram)
Johnsboro, Tenn., Aug. 3.—An engineer force here is removing wrecks of more than 20 vessels, gunboats and transports, captured or crippled when the Confederate cavalry leader, General N. B. Forrest made his attack here in 1864. Johnsboro was the na federal depot for supplies. The wrecks for over 50 years have been an obstruction to navigation at low water.

Belgian Socialist Hears Two Governments About to Adjust Differences

DR. MICHAELIS READY FOR AN HONORABLE PEACE

Warns Germans Against Giving Enemy Reason to Believe Nation Weak

(Associated Press Telegram)

London, Aug. 3.—Camille Huysmans, the Belgian secretary of the International Socialist Conference, in an interview today with a correspondent of the Dutch newspaper, Handelsblad, declared that Russia and Austria-Hungary were on the verge of coming to an understanding according to a dispatch from Copenhagen to the Exchange Telegraph company.

PEACE IS NOT NEAR.
(Associated Press Telegram)

Copenhagen, Aug. 3.—According to a published account of conversations in Dresden, Chancellor Michaelis said that while he was ready to accept any opportunity given him to secure an honorable peace, the requirements of the hour for Germans was to avoid any manifestations of nervousness and prove to their opponents that Germany's might was unweakened. Germany's opponents, Dr. Michaelis said, had been greatly encouraged by the exhibition of nerves in the latest inner crisis and by the German longing for peace which was interpreted abroad as a sign of weakness of the German people. Peace would be brought no nearer, he said, by such things, adding that the government would continue its efforts for peace, but would avoid earlier mistakes.

Chancellor Michaelis intimated that the prospects for a speedy peace were not bright, but that any subsequent developments at any moment might bring the question to a head and produce tangible results. He appealed for unity and declared that the entire German press must back the government in all vital questions.

AMERICAN TANKER EVADES U-BOAT BY SUPERIOR SPEED

(Associated Press Telegram)

An Atlantic Port, Aug. 3.—An American tank steamship loaded with gasoline was engaged in a running fight with a German submarine, July 10, when near the French coast and escaped destruction by superior speed after a torpedo had been launched and 11 shots had been fired from the U-boat's deck guns according to officials of the vessel on arrival here today. The submarine appeared after the wake of the passing torpedo had warned the Americans of the presence of an enemy. From a position several miles astern the bombardment took place but none of the shots reached its mark. The American gunners on the tanker fired 16 shots in return but without results so far as could be ascertained. The captain of the tanker said he carried induced him to seek safety in flight rather than to try for conclusions at close quarters.

EIGHT AMERICAN GUNNERS ARE LOST AS TANKER SINKS

(Associated Press Telegram)

London, Aug. 3.—Eight naval gunners were lost when the American tank steamer Motono was sunk by a submarine. Sixteen members of the crew also perished.

The Motono of 2,750 gross tons, was sunk by a German submarine on July 31. It was ascertained from London on August 1 that 22 survivors had been landed.

ATTICA IN GREECE IN STATE OF SIEGE

(Associated Press Telegram)
London, Aug. 3.—A state of siege has been declared in the whole Greek department of Attica, including Athens and Piraeus, according to a dispatch from Athens to the Exchange Telegraph company. The department of Boeotia, adjoining Attica on the north, also was placed under martial law.

CAN'T ENLIST DRAFTED MEN.
(Associated Press Telegram)
Cleveland, O., Aug. 3.—Company officers of local military units have received orders forbidding the enlistment of men who have been drafted even though they have not called for examination. In the future only men between the ages of 18 and 21 years and 31 and 45 years may be accepted.

EXAMINATION FOR SELECTIVE ARMY IS NOT SO RIGID

Still no official notification has been received by the local exemption board of any increase in the quota from this district. Of the first 1200 men notified 21 have applied for exemption blanks, but these men will be required to appear for the official examination on the day named, without regard for the exemption claim.

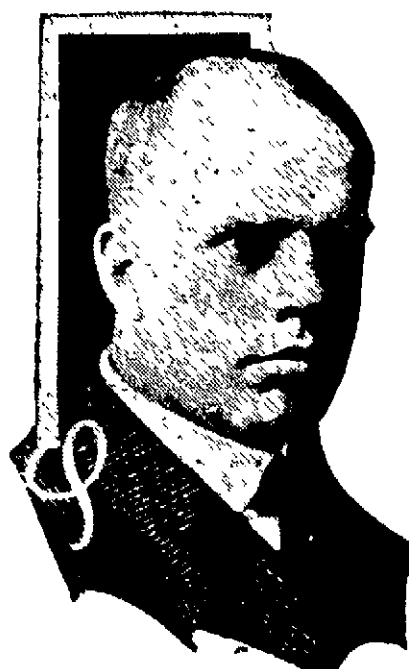

The examination which will be made in the courthouse is generally the same as the ordinary examination, with the exception of a few qualifications which have been modified. One of the things which will not be considered as a disqualification is color blindness.

The person examined is asked if their health and habits in any way with interfere with their success in civil life. Also if they have ever been in a hospital for treatment. The examination includes weight and height, general examination of head, chest, abdomen and extremities, nose and throat, and heart. Examination is also made for hernia and flat foot or other deformities. The eyes, hearing and teeth are also listed.

The first 20 men will be examined Monday morning 8:00 o'clock. The last of the notices were mailed yesterday and the following completes the first list selected:

HORTON TURNS OVER CLERK OF COURT'S OFFICE TO LEO T. DAVIS NEXT MONDAY

LEO T. DAVIS
New Clerk of Courts

BERT O. HORTON
Retiring Clerk of Courts

Clerk of Courts Bert O. Horton will retire Monday in favor of Leo T. Davis, who will succeed him in office. Mr. Horton has served two terms in the most creditable manner and his many friends in Newark regret to see him leave.

Mr. Horton was elected to the office and took charge in August, 1915, and has served continually since, completing two terms.

Many changes and improvements have been instituted during his term of office and affairs have been conducted in a thoroughly business like manner.

The office force has been working hard to get the books and records in shape for the new clerk and that work has been finished.

Friends of Mr. Horton will all ways remember the pleasantness and willingness with which he would dig out records and in all his term of office he has been ever willing to oblige.

Mr. Horton will remain at the office in the courthouse for a few days to help Mr. Davis get started. What business or profession he will enter will be determined later.

kinds most difficult and observation work by the air services precarious. The entire allies have continued to consolidate and arrange their positions despite the handicap of the weather and now are strongly entrenched along the new line.

New York, Aug. 3.—The Flanders front where the great offensive launched by the entente on Tuesday has been held up by unfavorable weather remains the center of military interest. Along other sections of the line in the west, however, there is notable activity suggesting attempts to deflect the courses of the main entente foe.

Today's official British report revealed that the Germans last night delivered an attack on the Arras battle front, biting into the British line on infantry hill, an important eminence east of Monchy Le Preux. There was a swift reaction by General Haig's army and by this morning part of the ground had already been regained.

Likewise on the French front in the Aisne region there have been violent German attacks. The French were ready for these, however. The stroke was delivered on a front of about half a mile in the vicinity of Cerisy. It failed under the French fire, the crown prince's troops suffering heavy losses.

On the Russian front the Austro-Hungarian land of Bukovina has again been virtually overrun by Austro-German forces which were enabled to advance by reason of the recent disastrous break in the Russian lines to the north. A Vienna dispatch today reports Czernowitz, the capital, once more in Austrian hands, while Petrograd announces that Kimpowit, in southern Bukovina has been evacuated.

Czernowitz has changed hands frequently in the ebb and flow of the fighting during the course of the war but was considered to have become Russian territory beyond dispute when General Brusiloff swept Bukovina free from Austrian hands last year and advanced far westward from the Bukovina border. It remained for the disorganization that developed in the Russian armies last month to upset these calculations.

MOTORCYCLE RACES AT MOUNDBUILDERS PARK SUN., AUG. 12

Newark racing fans will view some exciting sport August 12 at Moundbuilders park when the six or eight local motorcycle racers go into action. A fast and exciting program of races is promised throughout the afternoon. A part of the proceeds will be devoted to the benefit of the local Red Cross.

STOP FORAGING EXCURSIONS.

(Associated Press Telegram)

Copenhagen, Aug. 3.—The favorite sport for hungry Berliners of foraging excursions to adjacent rural regions, according to German newspapers received here, has been stopped by the military authorities, who have made the purchase or sale of eatables under such conditions a crime punishable under martial law. Authorities have been instructed to confiscate all foodstuffs captured in transit.

Representative Howard Bland of Texas, his wife and daughter Zella, are visiting Mr. Alice Bland of North Sixth street and Mrs. Ella Bland of East Main street for a week.

EXPECT ACTION ON FOOD CONTROL BILL IN HOUSE TODAY

(Associated Press Telegram)

Washington, Aug. 3.—Final action on the administration's food legislation was forecast when the House convened today. Before it were conference reports on the two bills, the first providing for a national food survey and stimulation of production and the other providing for food control. Approval of both reports seemed assured.

The Senate was not in session today but probably will take up the conference report on the control bill tomorrow. It is expected to act favorably on the report, although there will be opposition to accepting some of the compromises effected by the conferees.

NEWARK BOYS GET UNIFORMS TODAY

Alex Claytor and James Grady of the divisional motor train company in camp in Columbus are visiting at their homes today on a short leave.

Yesterday Bernard Ewald and Vincent Roll spent the day in Newark.

The boys will receive their uniforms today. The shipment arrived yesterday and was distributed this morning. All are enjoying camp life, with the exception of the meals, few of them having accustomed themselves to the foodstuffs of the camp.

HEATED SPELL IS OVER SAYS BUREAU

(Associated Press Telegram)

Washington, Aug. 3.—"The heated spell is at an end in all parts of the return of warmer weather in announced today. "Although conditions in the far northwest indicate the return of warmer weather in northern districts within a few days light rain falls Thursday in the middle Atlantic states and sub-stated showers were experienced in North Carolina and in portions of the east gulf states, light rains also fell in Oklahoma and Kansas. It will be slightly cooler tonight in New England and the middle Atlantic states and a little warmer on Saturday."

DRIVE FIVE NEW CARS OVERLAND FROM MICHIGAN.

Frank Tafel, Frank Payne, Will Dispennet and two young men of Pataaskala left Newark Monday for Jackson, Mich., to bring to Newark "some new cars." They left Jackson Tuesday noon arriving in Toledo at 12 o'clock that night. Leaving Toledo at 7 o'clock Wednesday morning they arrived in Marion at 11:15 and came to Newark yesterday morning from Marion. The new cars driven were three Buicks, a 2-ton Reo truck and a Reo touring car. There were some 20 agents for Buicks in Jackson at the same time and the demand for cars makes it almost impossible for the factories to turn them out.

The 240 miles which they covered with the new cars were made in good time considering the roads which were not good in places.

Mr. and Mrs. Harris of New Jersey, are visiting Mrs. Harris' mother, Mrs. Haslop, West Main street.

Among the Practical Features of Chautauqua Week Will Be

Health Day

Featuring
DR. CHARLES E. BARKER

Former Physical Adviser of President Taft, Chief Justice White, Frank A. Vanderbilt of New York and H. P. Davison of J. P. Morgan & Company.

There will be some valuable surprises in Dr. Barker's Lecture on

"How to Live 100 Years"

He has another lecture on "The Art of Happiness"

Had Methuselah practiced the Barker system for a hundred years or so, he might still be living to tell the story of the flood which brought fame to Father Noah.

But the Barker Lectures are only a single feature of Chautauqua Week. For a \$2.00 season ticket you may enjoy nearly 20 sessions.

RA-MO-NA HERBS WILL HELP YOU!

Nature's Way is Best

STOMACH TROUBLE? LIVER AND KIDNEY INACTIVE? RA-MO-NA HERBS (Tablets)

Too many medicines sold now treat the effects produced by disorders of the human system and not the cause. Take for instance Rheumatism: unless the Blood is purified and the uric acid which causes it is eliminated from the system it will never be cured. If your Stomach is out of order, Kidneys and Liver not working properly producing Indigestion, Biliousness and Constipation. With its ill effects such as headaches, biliousness, dizziness, tired, run-down, languid feeling, one dose of RA-MO-NA HERBS will make you feel entirely different. RA-MO-NA HERBS is a purely vegetable tab-

let, composed of herbs, roots and barks, which assists Nature to perform its various functions. Trial size 25c or two months' treatment, 50c.

RA-MO-NA Herbs is a tablet composed of 8 different herbs gathered from different parts of the earth and combined in the proper proportions to build up and tone the system in a natural way. No matter how many have failed in your case, RA-MO-NA Herbs will help you. Get a trial box today. 25c or two months' treatment 50c.

CHAUTAUQUA FUND SHORT \$214; NEXT SEASON UNCERTAIN

The Chamber of Commerce has a deficit of \$214 to be made up for the Newark Chautauqua. A. S. Mitchell stated this morning. This is about 107 tickets short of the amount which should have been sold, but at that there is a fine chautauqua program being offered, and it is thought many people will soon avail themselves of the opportunity to hear the remaining numbers.

The Chamber of Commerce is backing the project, and the success of the splendid program is due to that organization.

This year the sale of tickets was not so well received as last year. There was no deficit last year.

Plans for next year are uncertain, but an effort is being made to find some method by which the splendid summer entertainment may be retained for Newark.

Granville

(Special to The Advocate)

Granville, Aug. 3.—The Granville Chautauqua and Baptist Assembly opened last evening with reports on Sheperdson campus at 6:30. Services will be held in the same place this evening. At 8 o'clock the big tent was opened for the first attraction on the chautauqua program, an illustrated lecture on "Sun-Kist California," by Rev. Charles A. McAlpine, which even exceeded expectation and held the audience enthralled with the beautiful and interesting scenes. Preceding the lecture, the chairman, W. H. Holmes introduced in his genial way, several men, who as the representatives of various organizations have made this great undertaking possible for Granville.

For the first time in her history, President C. W. Chamberlain of Denison University offered the grounds, the buildings, including both swimming pools, the dining room, and the entire college farm with the one exception of the "war gardens" which are sacred. H. W. Deming, president of the Greater Granville association, praised the energy and initiative of the Granville association. With the relief from the extreme heat of the past week, a greater interest in the chautauqua is being manifested and the excellence of last night's attraction, is guarantee that the whole program is to be of a superior character. This afternoon at 2:30 and tonight at 8 o'clock the Metropolitan Grand Quartet will sing. Tomorrow afternoon is to be a temperance day with an address at 2:30 by Mrs. Frances Ensign Fuller. Tomorrow night, Dr. Deming of Iowa, will deliver an address on, "The Man of Now."

The two Granville units of the serial parties now being given for the benefit of the war relief committees, were entertained at luncheon Thursday, at "Holmshurst" the home of Mrs. Frank Ray, chairman of the Red Cross committee and vice chairman of the A. F. F. W. It is safe to say that no more delightful function has been given here in years, and the guests needed no greater diversion than to ply their needles while grouped about over the velvet turf under the shade of the magnificent trees, while they enjoyed the first relief from the torrid temperature of the past week. They began to arrive at 3:30 a. m. and many remained until 4:32 p. m. a proof in itself of thorough enjoyment. The twelve ladies who planned and furnished the luncheon are among Granville's most experienced hostesses and received much praise for the following menu which gained added flavor and tang from its out door accompaniments, cold tongue, potato salad, cottage cheese, brown bread, white bread and butter, pimiento cheese, lettuce and cucumber sandwiches, coffee, cake and ice cream. The hostesses were Mrs. Ray, Mrs. Dundy, Mrs. Williamson, Mrs. Kussmaul, Mrs. Pollett, Mrs. Nichol, Mrs. Halderman, Mrs. Edward M. Jones, Mrs. Dorsey, Mrs. Odebrecht, Mrs. George H. Reece, Mrs. Case. Several holders of tickets who were unable

to be present, gave their tickets to friends to present; others returned them to be sold again, thus making it difficult to give a list including everybody. Those present were: Mrs. Odebrecht, Mrs. Darrow, Mrs. Coons, Mrs. J. M. Swartz, Mrs. Ullman, Mrs. Young, Mrs. Whitehead, Mrs. Yingling, Mrs. Wm. Howe, Mrs. Hubert Robinson, Mrs. Slack, Mrs. Eliza C. Wright, Mrs. John Geach, Mrs. Clemens, Mrs. L. N. Flory, Mrs. Kier, Mrs. John A. Owens, Mrs. H. G. Sheidt, Mrs. E. H. Hammond, Mrs. Fred McCollum, Mrs. Rohrer, Mrs. A. P. Nichol, Mrs. Fauley, Mrs. C. L. Williams, Mrs. W. H. Johnson, Mrs. Fred Seymour, Mrs. T. G. Field, Mrs. Banoroff, Mrs. Fred Miller, Mrs. Harry Burham, Mrs. B. F. Griffith, Mrs. Sellers, Mrs. Biggs, Mrs. Thonburg, Mrs. J. D. Thomson, Mrs. Ogden, Mrs. J. G. Campbell, Mrs. Austin, Mrs. Frank F. Robinson, Mrs. Hollenbeck, Mrs. Hutchings of Newark, Mrs. James A. Huston, Mrs. James A. Huston, Jr., Rochester, N. Y., Mrs. Loveless, Mrs. William Showman, Miss Sarah Letty Green, Miss Laura C. Green, Miss Rose Mitchell, Miss Sheldon, Miss Edna Morgan, Miss Anna Lyon, Miss Carrie Howland, Miss Jennie Roe, Misses Frances Jones, Frances Ray, Dorothea Lapp, Caroline Chambers, Laura Herrick, Clara Sheldon, Julia Rogers, Marcia Watkins, Etna, Mildred Reece; Messrs Albert C. Fawley, Burton Case, Master George Williamson. Among those temporarily proscribed by the heat were Mrs. E. J. Dorsey and Miss M. E. Penney. Both hostesses and guests will be gratified to learn that the monetary benefit to the Granville A. F. F. W. will be \$42.50. The \$3.50 representing the re-sale of several tickets.

Rev. and Mrs. C. E. Stanton will entertain during the chautauqua and assembly their parents, Dr. and Mrs. A. J. Bonsall of Pittsburgh. Dr. C. L. Williams after spending a few days in Granville has gone to Columbus, where he and Mrs. Williams will spend several weeks. Prof. Williams' many friends throughout the country will be glad to know that he is rapidly recovering his health.

The Williams family held its annual reunion yesterday at the home of Mr. and Mrs. Fred Williams in the Welsh Hills. About one hundred guests were present.

SALVATION ARMY IS DOING WAR WORK

The Salvation Army is playing no little part in the war as the following statistics will show. The army has erected 153 refreshment huts in the military camps in Great Britain, France and other countries costing \$350,000; it is operating 77 hotels and naval and military homes with 4,000 beds costing over \$400,000 and extensions costing \$100,000; it has supplied 30 motor ambulances in the war zones in France, Russia and Egypt at an expense of \$50,000; more than 300,000 soldiers and sailors are catered to weekly in the various institutions; it has sent 41,000 food parcels and articles of clothing to prisoners of war and soldiers and sailors; about 1,000,000 men attend the meetings weekly and many thousands have been converted. The statistics have just been received by Adjutant Higgins of this city from the Salvation Army Secretary of War.

K. OF C. AFTER REVENGE UPON RIVAL BALL CLUB

The fans who like to see "pep" displayed in a game should not miss the one scheduled for Sunday between the local K. of C. team and the Smiths of Columbus. The Columbus team is composed of some of the best players in the capital city as their game against the locals several weeks ago proved. They were defeated by the crack Marion Questions in a 14 inning contest by the score of 1 to 0 in what was said to have been the fastest game ever witnessed in Marion. Mgr. Metzger says that he will very likely use his crack "southpaw," Preen, who held the locals to five hits in the first game, while Mgr. Kennedy says that Krontz will do the twirling for his team as the big fellow is out for revenge. Game will be called at 3 p. m.

CITIZENS APPROVE SOCIAL CENTERS IN ARMY CANTONMENTS

In order to acquaint the public with the necessity of recreation centers in the army and navy camps for the comfort and welfare, both spiritual and temporal, the committee conducting the K. of C. campaign to raise funds for these centers, directs attention to the following signed statements of a few of Newark's citizens:

Henry S. Fleek.

August 2, 1917.

I most heartily approve of all recreation and amusement facilities that can be supplied to the men soon to be stationed at various concentration camps.

Anything that will tend toward keeping the boys away from the temptations of the saloon or rough houses will be of immense value, not only to the boys themselves but to the country.

Henry S. Fleek.

August 2, 1917.

In response to your request for an expression regarding the good that can be derived from the efforts made in an organized way by the Knights of Columbus and the Young Men's Christian Association among the soldier boys in the army camps, will say, that I am most heartily in favor of it, and anything in a personal way I can do to further the movement or in any way assist either organization, I will be glad to do.

Respectfully, H. H. Scott.

Director of Public Safety.

Dr. W. H. Knauss, Health Officer.

August 2, 1917.

Experience in various military camps has impressed me with the fact that "recreation centers" are very essential to the comfort, contentment and happiness of the soldiers.

These recreation centers as proposed and as operated on the border of the M. C. A. and of K. of C. during the last year are really a combination of club, rest and recreation rooms, athletic rooms and grounds, Chautauqua, etc., and are of more importance in these camps than similar centers in cities, as home influence is lacking.

Dr. W. H. Knauss.

F. L. Johnson, Gen. Secy. Y. M. C. A.

August 2, 1917.

The work about to be undertaken by the K. of C. for the soldiers of our new armies is worthy of commendation. It will be impossible to throw too many safeguards around these boys.

Christian ministrations through the meeting of social and recreational needs will appeal to every soldier.

Frank L. Johnson.

The K. of C. campaign will be opened next Tuesday morning and close Wednesday night.

All a ball team has to do to get loyal support from the bleachers is to win every game.

Some types of men feel quite reconciled to physical defeat with this selective draft threatening them.

It is about time to collect hot dogs and fish-balls with which to celebrate Fried Chicken Day, September 1.

Any of the small boys can tell you how the big major league ball teams could win if they didn't play such bonehead ball.

Some obituary writers are reminded that the Grand Old Man in the community ought not to die often than every six weeks.

Those plotters who are planning to blow up factories would better start running just about now while the running is good.

After shopping around to save seven cents on a peck of potatoes some people will pay \$750 to boot to get a 1917 automobile.

The regulation method of keeping the boys contented on the farm is to put them on the hottest and dustiest mow to stow the hay away.

A grammar school education, a knowledge of the one step and fox trot and a dress suit will secure admission to quite exclusive circles at the summer resorts.

One feels subtly flattered at the warmth of affection shown by the cat and dog when one gets home, but that may be due not so much to personal attachment as to weariness with a dry bone diet.

HIGH VEGETABLE PRICES.

It is estimated that there are this summer in this country, three times as many vegetable gardens as commonly. Yet the complaint is made in many localities that while vegetable prices have come down from the high rates prevailing previously yet they are far above the prices of a year or two ago.

In spite of all the gardens, it is not probable that the supply of vegetables will be three times as large as usual. Many of the amateurs will be very tired before the summer is over and they will gather a superb crop of weeds and an indifferent crop of vegetables. But it seems reasonable to hope that the supply of vegetables will be doubled from last year.

Under these conditions it seems hard to believe that vegetable prices can remain high. Producers and wholesalers will do well to be content with moderate prices. They need not think that the American people have an inexhaustible treasury of greenbacks and can pay high figures indefinitely. It will be good patriotism and good business to make moderate prices so as to encourage the free use of garden produce, and save our wheat and corn for the needs of our allies and ourselves through the winter.

ART WORK AND MANUAL LABOR.

There are some queer contrasts in the values placed by the world on different kinds of work. Charlie Chaplin gets ten times as much as the president of the United States. And manual labor is reaching the point where it commands more than art or brains of many kinds.

One instance is the relative pay earned by women who produce art objects, and those who do the coarsest kind of manual labor. A few years ago the arts and crafts movement was a prominent phase of our economic interests. Many women took to producing art objects and artistic home furnishings.

Their product was interesting.

NEWS AND VIEWS FROM GERMANY

By FRIEDERIC WILLIAM WILE

(Late Berlin Correspondent of the New York Times, Chicago Tribune, and Philadelphia Ledger. Now London Representative of the Vigilantes.)

London, July 14.—It is devoutly to be hoped that people in the United States have taken the Berlin "political crisis" too seriously. People hereabouts, whose wish is father to the thought, are prone to jump at conclusions every time a Democratic head dares to show itself in Germany, or whenever one of the Liberal, Radical or Socialist groups takes its courage in both hands and thinks out loud more bravely than usual. As I write, Berlin dispatches indicate that there is to be a Cabinet shake-up in both the Imperial and Prussian branches of the Government; that Dr. Helfferich is to be dismissed as Imperial Minister of the Interior; that Herr Zimmermann, Foreign Secretary, who made himself notorious over the proposed Mexican-Japanese alliance against the United States, is to be pitched overboard; and that four or five members of the Reichstag are to be given Ministerial jobs of one sort or another.

I cannot possibly explain the meaningless of these sops to "Democracy" by William of Divine Right any better than the Frankfurter Zeitung—whose political department was recently suppressed for publishing some frank criticism of the Kaiser—which says:

"Half-measures will carry us no farther. The mere raising of a few parliamentarians to the rank of Excellencies (Cabinet Ministers without portfolios) is meaningless if the whole Ministry retains the character of a bureaucratic Government."

Bismarck taught the Prussian ruling classes that the German people are a nation of house-servants. House-servants the world over, can be propitiated with soft words or tips. When the German people, after the prodigious sacrifices Bismarck imposed upon them in three successive wars within seven years—against Denmark, Austria and France—demanded "self-government," the Iron Chancellor threw them a tip by giving them a Reichstag. But he was very careful to see that it was shorn of any real power. He framed the new Imperial Constitution so that the "Parliament" created thereunder was condemned in perpetuity to be

nothing but a money-voting machine for the Government and a safety-valve for the country—where its chosen representatives could let off oratorical steam at will without any possibility of affecting or controlling Government policy.

The Cabinet "reforms" which the Kaiser has felt constrained to make in deference to the notorious unrest now filling the German national soul does not relieve the Reichstag of its impotent character as a single debating society. Roman Catholic "Centrists," National Liberals, Radical-Progressives and Social Democrats may fuse their parliamentary strength into an anti-war or anti-Kaiser majority as often as they please, but that will not bring peace an inch nearer. There was a celebrated German Liberal politician, who deserved the title in more than name—Dr. Theodor Barth, well known in the United States. He once said to me, referring to the pusillanimity of the Reichstag and the Prussian Diet, that "representative Government in Germany is a lie." So it is. And such "crises" as those which have just passed in Berlin leave it a lie.

Let Americans remember the grandstand "bluff" sewing by the Kaiser at the United States expense a year and a half ago, when Admiral von Tirpitz was reelected from the Secretaryship of the Navy on account of the submarine controversy. Tirpitz was the chief apostle of unrestricted U-boat piracy. His dismissal was heralded far and wide as evidence that Germany had decided to wage war at sea with some regard to the dictates of humanity and law. As a matter of fact, von Tirpitz's going and von Capelle's coming was followed by a steady, relentless intensification of submarine warfare.

On the very day when a lot of misguided people in England were congratulating themselves that "things in Germany are tottering at last," the Germans on the Flanders coast inflicted upon the British army the fiercest defeat the latter has suffered at Flanders in more than a year. It is a warning, or ought to be, that "crisis" or no "crisis" in political Berlin, Hindenberg is still on the job and that it will not be time to talk about the "collapse" of our ferocious and savagely efficient enemy till we have him unmistakably on the run.

PROHIBITION MARCHES ON.

(Pittsburgh Gazette-Times)

When, on December 22, 1914, the moon resolution for a prohibition amendment to the Federal Constitution was defeated in the House of Representatives, Prohibitionists found cause for rejoicing in the fact that a majority of the members voting favored the measure. The vote was 170 to 189. Their confidence, expressed then, that the next test would virtually settle the old fight in favor of a "dry" country was justified to an extent yesterday when the senate, by a vote of 65 to 20, approved the Sheppard resolution. Recent action by the house on prohibition, considered in connection with the known accessions to the ranks of advocates of destruction of the liquor traffic through amendment of the Federal Constitution, indicates that the resolution will be passed by two-thirds of the representatives also. In that event it would be up to the states, ratification of three-fourths of which is necessary to make it effective. In normal course, a proposed amendment would be ratified eventually, for it would stand before the country until approved by the required number of states. But to the Sheppard resolution has been attached an amendment, offered by Senator Harding of Ohio, providing that if it is not ratified within six years it shall fail. Some senators argued that this is unconstitutional, but it may be decided it is permissible since such limitation is not forbidden by the constitution. However, that it farther along.

The fact is practically nothing concrete can be done toward ratification until 1919, since only a few of the state legislatures will be in session before January of that year. It is reasonably certain that half the states will stand for national prohibition with little show of opposition in their lawmaking bodies. The increase of prohibition sentiment in the rest of the states has been very great of late and the war is almost certain to strengthen the movement. If the house acts as it is expected to, legislative elections next year will be conducted with ratification of the prohibition amendment as the chief issue. And some surprising results probably will be disclosed in states popularly supposed to be under the sway of the liquor interests. Prohibitionists, however, have their work cut out for them and the first task is to get the resolution before the house and secure a two-thirds vote in favor of it.

WHY PEOPLE GET FAT.

Among curious popular fallacies is the idea that an individual may become obese without eating too much and may remain obese even when very little food is taken. If a person, each day, eats a butter ball weighing only a third of an ounce in excess of the food actually needed, it seems trifling, insignificant, but continued over a year it would involve a gain in weight of nine pounds of fatty tissue or in ten years of 90 pounds. An ounce of bread, or half a glass of milk, more than the food requirement for the day will bring about the same result. Conversely, if the quantity of food taken be only slightly below the needs of the body, some of the body's own fat is used and the body weight falls a process which may be extended over a long period of time. Dr. Graham Lusk, in "The World's Work" for August.

A future dictatorship in Germany may have some good results if it would only dispose permanently of the crown prince.—Springfield Republican.

Spirit of the Press

A Necessary Move.

The wheat and flour men will have to get back to earth. The United States government will complete the job begun by the exchanges themselves in stopping the trade in wheat futures. We must have decent prices on the necessities of life. Speculation and extortion have been running riot. The first duty of any government is to its own people.—Brooklyn Eagle.

Handicaps to War Service. Every man of large experience in practical affairs who has been chosen or who has volunteered for service in connection with the task of preparing for war has been handicapped and discouraged by official red tape. Various civilian bureaus composed of men who have been leaders in their particular lines of endeavor have come into close contact with either the Naval or War Departments. Without exception the individuals into whose hands has fallen the important work undertaken by these bureaus have been deprived of opportunity for showing their fullest usefulness.—Detroit Free Press.

SECRET SERVICE AND PATRIOTISM

THE ENEMY ALIEN TALKS TO ROBERT J. WILDHACK

(The fellow is consistent and thorough and logical in contempt and enmity for the United States. He seems to be representative. He apparently cannot conceive that I could disagree with him or could harm him if I did.)

I said it before that we had in this country a secret service but we don't need it hardly. Nothing is secret here that Germany wants to know. Almost everything is easy to see or to know about and the rest can be seen by some one person, at least, who will pass the word along. That means by any German.

Many years in this country I have heard people say "all's fair in love and war," and laugh about it—and they believe it only half. Only a quarter, I mean. You see they are thinking only of love with the Germans and not of war. It doesn't mean it because there are lots of things they think a man must do in love—you let your women run all over you so, anyway—the man is boss in Germany.

When they say "all's fair in love and war" in Germany, they mean it—especially about war. All is fair in Germany war. Every German believes it and every German is a patriot. He is taught that his country is above everything to be served. If he sees or hears anything which his government would like to know, he will go to much trouble to see that his government hears of it as soon as possible. So would any American if Americans were patriotic and also if they meant what they said and were not such hypocrites.

All is fair in love and war and every German is a government detective just as every German is a soldier at one time or another. Germans are employed in every business in this country and information comes through their hands every day—and all the time your people here are hollering about some news "leaked out." It didn't "leak out," nothing of the kind. It must be a secret before it can "leak" and it never was a secret! Sometimes I feel so mad to see such fools make

ment has beset on one side by forces of radicalism gone mad with the intoxication of the revolution; on the other by powerful influences of the old regime, intriguing with Russia's enemies in arms. History records no greater task in the life of nations anywhere. It would be stupendous even though the world were at peace and hostile armies were not battering their way into Russian territory.—Spokane Spokesman-Review.

Women's Opportunity. Unless women volunteer in large numbers for cannery work at once the crop increases will be greatly offset by failure to make use of the produce. The first detachment of volunteers actually joining the crops is already at work in a cannery near Baltimore. In Maryland, which packs about half of the country's entire output of canned tomatoes, the situation is especially severe. There are undoubtedly many fields in which women can be of great patriotic service during this crisis in our national life, and at the same time can be made self-supporting. With proper supervision the problem of developing the women workers of the nation can be solved, and the women cared for as they should be protected. It is a big movement, and will have far-reaching effects, not only now, but after the war.—Memphis News Scimitar.

Berlin is getting almost loquacious in the matter of war bulletins.—Springfield Republican.

iam Willett? In 1907 he published a booklet on the "Waste of Daylight." In 1908 a Daylight Saving bill was introduced in the House of Commons but failed of passage. The measure was opposed on the ground of being needless, deceptive and confusing. On April 6, 1916, the German Federal Council passed a measure providing that on May 1, 1916, all clocks should be set ahead one hour. Within three months twelve European countries had followed the example and "Summer Time" was in use in Germany, Holland, Austria, Turkey, England, France, Norway, Sweden, Denmark, Italy, Switzerland, Spain and Portugal. Nova Scotia had the honor of introducing the new order in the New World. Practically no confusion resulted; everything went on as before, people doing the same things at the same hour o'clock, but in reality the whole routine of life had been brought one hour nearer sunrise.

The Courts

Common Pleas Notes.
In common pleas court John Uteyris filed a petition against George McCabe, charging that at Buckeye Lake he was assaulted and beaten. The altercation occurred July 29. Damages to the amount of \$3000 are sought.

In the case of Edward Jack vs. The Ohio Electric Railroad, the case has been appealed from Justice Scott's court. Jack claims damages of \$250 on his machine July 22, 1917, in West Newark.

Charles Stotterbeck and Charles Darr both have charges of assault pending against them. The cases were brought from Squire Jones' court.

Judge Fulton heard the evidence in the case of Florence A. Barr vs. Harry D. Barr, a suit for divorce, and at the conclusion of the evidence

MRS. ALLEN USES TOURING CAR AND TRAILER IN NATION-WIDE CAMPAIGN FOR CONSERVATION OF FOOD

USE CORN MEAL AND WHOLE WHEAT TO SAVE THE FOOD SUPPLY IS MRS. ALLEN'S MESSAGE

Coming directly in line with the local work done by the women's committee of the council of national defense, Mrs. Ida C. Bailey Allen delivered one of the most interesting lectures on food conservation that the women of Newark have had the privilege of hearing.

Mrs. Allen took for her subject "Mrs. Uncle Sam Wades in," and was quite enthusiastic in her praise of an appreciative audience. After the lecture Mrs. Allen answered questions pertaining to the planning of meals and the cooking of foods. She had with her samples of brown rice hominy, soy beans, and other food products.

Mrs. Allen denounced the American housewife, saying that as long as she had written for women, she found that they did not read, or if they did read, they did not follow instructions. She then asked how many women were substituting corn meal for wheat flour and said that Newark had fewer patriots than anywhere, and that the few women who were using corn meal three times a week were "near-patriots."

Whole wheat flour, Mrs. Allen said, should be used as a substitute for white flour because it contains all the fat of wheat, which is called "milling" and "bran" and other ingredients, making it a more wholesome food than white wheat flour.

"In my last letter from Washington I have been asked to emphasize particularly this point of conservation," said the speaker. "We are asked by the government to use only reasonable foods. No more oranges out of season. Tomatoes in your garden. Grapes when grapes are growing on your own vine and no corn in your garden. Let New York eat its own food. California, hers, and you people of Ohio use your own food. Then we will not be using cars for transportation of foods for ourselves, but they will be used for ammunition and food stuffs for the men at the front and across the water."

They are asking us to use no veal and no young chickens. All that is to be done before killing, thus saving the food and adding to its value. The government also asks you, Mrs. Uncle Sam, to eat no ham and bacon, but allow that food which can be shipped easily to go to our armies.

"There are two wars going on now—the one across the ocean and one between the American appetite and patriotism. The American man who refuses to eat corn bread is as much a slacker as the man who fails to register."

Mrs. Allen emphasized the point of housekeepers doing their own shopping. One woman, she said, was spending her time and energy knitting 12 wash cloths a month, when she could have supported six children in Poland, with the money she paid for the delivery of groceries, and the excess amount she spent by not doing her marketing personally instead of over the phone.

The lecturer is an ardent supporter of "Balanced Rations" and gave to her audience a pamphlet telling how to plan balanced meals. She said: "You women of Newark have started splendidly, but why is your domestic science room idle? It should be open day and night for community planning. It is a terrible thing not to plan enough, but it is worse not to save what has been planned. Now is the time to save the crops and win the victory for the world. Every housewife should conserve enough for her own family, and for one other family beside. Let us drive from place to place to see the country women working in the fields. They are up at day-break to get the breakfast. They are working till late at night, canning and evaporating fruits and vegetables. They cannot do it all. How many cans of fruit and vegetables have you? How many pounds of jelly, jam, or dried products? How many have you set aside in time and money to help these women to conserve the food of the Nation? How many cans to give away? There is just so much food in the world's larder. We, the housewives of America, have to feed the civilized world. Obituary

Alonzo P. Taylor.
Alonzo P. Taylor, who died yesterday morning after a lingering illness at the home in Elmwood avenue, was the son of the late Judge William and Sarah McDougall Taylor.

Mr. Taylor was born Jan. 9, 1841, and was the last of nine children. He married, James Thomas, Mrs. Ellen Linn, Mrs. Emily Davis Armstrong, all of whom preceded him.

At the age of 13 Mr. Taylor married Miss Ella A. Granger and one son was born to the union, William Lorenza. Mrs. Taylor died in Los Angeles, Cal., in 1883, and William died in 1912. In 1886 he married Miss Anna F. Lewin, who alone survives him.

Mr. Taylor was a prominent man in Masonic circles, attaining the 32nd degree in that order. He was a member of Newark Lodge F. & A. M. Warren Chapter A. A. M., Bigelow Council R. E. S. M. of Newark. Mr. Vernon Commander, Knight Templar and Scoto consistory A. A. Scottish Rite of Columbia.

Funeral services will be held from the home in Elmwood avenue Saturday morning at nine o'clock under the auspices of the Newark Lodge F. & A. M. Rev. L. P. Franklin will conduct the services. Burial will be made at Cedar Hill.

Martha J. Price.
Miss Martha J. Price died at her home in the Welsh Hills Friday morning at 9 o'clock. She was the daughter of Isaac and Ann Price and leaves one sister, Mrs. S. A. Davis and two brothers, John D. and Frank Price of the home. Funeral services will be held Sunday afternoon at 2 o'clock at the home and burial will be made in the Welsh Hills cemetery.

Mrs. Leona Dell Danford, wife of W. D. Danford, died at 4:30 yesterday afternoon at her home 1122 South Fifth street. Her death was caused by tuberculosis from which she had suffered for a long time. Mrs. Danford was born at Kimbolton, Aug. 2, 1875 and was 39 years old. She leaves to mourn her death her mother, Mrs. Matilda Britton of Kimbolton, her husband, one married daughter, Mrs. Laura E. Wright of Detroit, a baby girl Mary Burdette and two sons, Robert, aged 15 and Harry aged 13. Funeral services will be held at the home at 9:30 Sunday morning. Rev. C. G. Hazlett assisted by Rev. Kraft will conduct the services. At 10:30 the remains will be taken to Kimbolton, where services will be held at 10 o'clock Monday morning. Rev. Mr. Ewing, who married Mr. and Mrs. Danford will officiate. Interment will be made in the Kimbolton cemetery.

Funeral of E. M. Jones.
The funeral of Edward Milton Jones will be held from the home of his sister, Miss Bertie Jones, 17 Oak street, Saturday afternoon at 1:30 o'clock, the Rev. Dr. Charles Stull officiating. Interment will be made in Cedar Hill.

Carl of Thanks.
I desire to express my heartfelt thanks and appreciation for the many acts of kindness extended to me by friends, neighbors and by the management and employees of Edward H. Everett company at the time of my bereavement. For services rendered by the Masonic lodge, and words of sympathy from Rev. Mr. Buell; for the words so beautifully rendered by the choir, and for the beautiful floral offerings. For all and to all I am sincerely grateful.—Mrs. C. B. Everitt.

The Sick

Timor Leedy, 27 Rose avenue, who was operated on Saturday at the City hospital for appendicitis, is improving.

Miss Bertha Miller, 57 Western avenue was operated on Wednesday morning at the City Hospital.

The condition of Mrs. Katherine Quinn, who has been ill at her home, West Church street, is improved.

WHY BLOOD SHOULD BE RED

The bright red color of the blood is caused by the presence of iron corpuscles. If these little bodies are lacking, the blood is pale and the body is undernourished. They also cause the glow of health in cheeks and lips.

When the blood is deficient in these red corpuscles the person not only becomes pale but the body is undernourished, the weight is usually reduced and as the nerves share in the general starvation some form of nervousness follows. When the blood is improved in quality the tissues are better nourished and all the functions of the body are better performed.

When the blood lacks red corpuscles it is a scientific fact that a course of treatment with Dr. Williams' Pink Pills will cause them to increase. This can be demonstrated by a microscopic examination and anyone can prove it by looking in a mirror, for an increase in red blood shows quickly in the cheeks and especially in the lining membranes of the eyelids.

"Building Up the Blood" is a booklet, full of useful information. Every mother and every growing girl should have one. It is sent free on request by the Dr. Williams Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills.

GRANDMOTHER NEVER LET HER FACE GET LINED AND OLD

Kept Her Youthful Looks and Clear Creamy Complexion with Common-Everyday Butterfink and Cream.

Every woman reader of this paper who prizes a clear creamy white complexion and snow-white hands and arms will be glad to know that, though preparing this old-time recipe at home is no more troublesome than they can obtain at any drug store, the ready-to-use preparation called "Butterfink and Cream" will be excused for using Butterfink Cream since beauty simply thrives on butterfink. No freckles or ugly blotches, no wrinkles or lines around the eyes and mouth, but just that creamy delicious color the cheeks even a good-looking woman still more beautiful.

Howards ready-to-use preparation is a delightful toilet requisite and a certain true butterfink. It is not a treatment for Eczema or other skin diseases. T. J. Evans—Advertisement.

Notes.
Through an error of the shipping department of the Famous Players Film Service, Cincinnati, Manager Fenberg's picture, "The Little Lady in the White Dress," was shipped to Newark, Ohio, instead of to the Auditorium, where it was to be shown. This picture is to be seen and announced to date, etc., is promised to the readers of this paper. It would not have been so bad, but the picture was advertised and the Auditorium wishes to advertise it with its patrons, therefore the management is busy arranging the engagement for "The Little Lady in the White Dress" to be seen here sometime next week.

The children as well as grown-ups will welcome Charlie Chaplin's appearance at the Auditorium tomorrow in "The Mirth of a Nation." Although an old story, being one of his early subjects, Marguerite Clark has assured a good print and those looking for a hearty laugh, in fact many of them, the Auditorium, with its cool, joyous sports, this morning, in the place. This feature together with Marguerite Clark in "The Fortunes of Fifi" and "The Little Lady in the White Dress" will be shown tomorrow, with no advance in prices and the showings tomorrow will be continuous starting at 1 p. m.

The two little boys who are to be seen in their first starring vehicle "The Two Little Boys," a William Fox production, at the Auditorium tomorrow, are the sons of the famous actor, Charlie Chaplin. No doubt the theater will be crowded all day, for the Newark kids are all admirers of those clever children.

The many friends of George H. W. are pleased to hear that he will be heard in songs at the Auditorium Sunday together with the picture program as offered that day. Numerous parties is to be made up of his friends, who plan to give him a royal welcome. This is his first stage appearance in his home town for over six years.

The Auditorium's program for Monday and Tuesday next is one that will create amazement and surprise when announced fully to picture fans, the one feature promised being "The Little Lady in the White Dress," with Martin and Sessue Hayakawa, who will be seen in a picture extraordinary called "Forbidden Path." Other announcements for the same time will be made in the Saturday issue of this paper.

Chicago Grain.

(Associated Press Telegram)
Chicago, Aug. 3.—Much uncertainty showed itself today on the part of shorts in corn owing to the fact that with two holidays ahead no relief was in sight from the continuing lack of rain and from the scantiness of receipts. Trade in the aggregate was light. Opening quotations, which ranged from 3-3 to 1 cent higher, with December at 1.18 1-8 to 1-4 to 1.18 1-2, and May at 1.16 to 1.16 5-8 were followed by slight further upturns, and then a moderate reaction.

The close was unsettled at the same as yesterday's finish to 1-3 cents higher, with December 1.17 5-8 to 1.17 3-4, and May at 1.15 1-2 to 1.15 5-8.

Wheat after opening six cents down at 2.25, September rallied to 2.30 but soon sagged to 2.29. Big threshing returns had a weakening effect on oats.

The close was steady at 3 1-2 net decline with September at 2.27 1-2. Provisions advanced readily on scattered buying. Shipments of cured and fresh meats for the day were in excess of the total a year ago and Liverpool advices were also favorable to holders.

New York, Aug. 3.—Violent fluctuations in Industrial Alcohol which opened at an advance of 2 1-2 points, followed by a reaction of 4 1-2, featured today's early trading. Elsewhere irregular gains prevailed.

Irregular strength ruled throughout the forenoon under the influence of short covering. Leathers, tobacco and fertilizers were again included among the active and strong issues. U. S. Steel reacted slightly but Crucible extended its early advance.

The closing was firm. Liberty bonds varied from 99.32 to low record, to 99.45.

General gains of 1 to 3 points in today's dull market were again largely traceable to short covering. Sales approximated 425,000 shares.

Eliminated—No Cheese For Free
Lunch Counters.

Suggestions for one beefless day each
week, with the serving of "war bread"
at every meal and a radical curtailment
in the use of pork products and
all butter and fats, have been made to
Herbert C. Hoover, prospective national
food administrator, by the New
York City Hotel association. If the
plan is approved by Mr. Hoover—and
it was devised along lines suggested
by him in his food conservation
announcements—patrons of New York
hotels will probably have their first
beefless day in the near future. At
the same time menu cards will contain
announcement of the inauguration
of one day each week on which no
beef will be served and of curtailment
in the service of other products in
which conservation of existing supplies
is necessary.

The scheme was presented to Mr.
Hoover by Thomas D. Green, president
of the Hotel association, and
John McE. Bowman, in co-operation
with Patrick V. Kyne, James Churchill
and H. E. Taylor, representing the
Society of Restaurateurs. The Hotel
association represents 105 hotels,
which serve about 200,000 meals each
day, and the Society of Restaurateurs,
includes in its membership all of the
big restaurants of Broadway and
many of the smaller ones in other
parts of the city.

Tentative regulations governing the
plan have been arranged and probably
will be made permanent. They are:
First.—Individual service of bread
and butter of uniform weight, the rolls
to weigh from one to one and one-
fourth ounces.

Second.—At least 10 per cent of other
flour to be used in making wheat bread
and rolls.

Third.—Most breakfast rolls will be
baked of other than wheat flour.

Fourth.—Stale bread and toast trim-
mings are to be made into "war bread"
for guests and employees.

Fifth.—Elimination of rough bread,
which requires more butter than
smooth bread.

Sixth.—Elimination of toast as a gar-
nish to meat dishes.

Seventh.—Discourage the use of fresh
pork.

Eighth.—Broiling, roasting, braising
and stewing is to be encouraged and
frying discouraged to conserve butter
and lard.

Ninth.—Service of veal, lamb and
sucking pig to be discouraged.

Tenth.—Beef to be eliminated one
day each week other than Friday.

Eleventh.—Cheese is to be removed
from free lunch counters.

Twelfth.—The use of sea food, fresh
vegetables and fruits is to be encour-
aged.

The "war bread" which is to be
baked in the hotels is based on a
simple recipe and can be made by any
housewife. It is: On the basis of a
butter tub of stale bread, crusts, etc.,
add ten quarts of water and ten ounces
of salt; soak thoroughly and strain
through a flour sieve. For this quan-
tity use one-half pound of yeast and
enough flour to make a very stiff
dough.

DRAFT BUSIES PRINTERS.

Government Workers Kept Busy by
Rush Jobs.

The draft has burdened the govern-
ment printing office with the biggest
task it has ever undertaken.

Here are some of the printing jobs
it has been working on:

Thirty million blanks, affidavits and
forms for use of the local exemption
boards.

Five hundred thousand copies of the
exemption regulations of about 100
pages each.

For the registration the printing of-
fice turned out 27,000,000 registration
cards and 18,625,000 certificates.

Nearly 175 different blank forms are
needed for the draft.

Over twenty-one tons of mail matter
concerning the draft has been mailed
out of the offices.

AMERICANS ABROAD RESPOND

Marine Corps Gets Applications From
104 in Every Part of Globe.

A remarkable instance of the patriot-
ism of Americans abroad was shown
during the past month by the applica-
tion for enlistment in the United
States marine corps of 104 Americans
living in all parts of the world. It was
announced at marine corps headquar-
ters.

Letters were received from twenty-
six foreign countries offering service
to the "soldiers of the sea." Every
continent on the face of the globe was
represented—New Zealand, China, Ja-
pan, Egypt, five each of South and
Central American countries, four West
Indian islands, several British colo-
nies and others.

It seems to take more trial trips
to test out a prison van than a battle-
ship.

BRITISH FIND NEW TACTICS ADOPTED BY GERMAN TROOPS

(ASSOCIATED PRESS TELEGRAM) British front in France and Belgium, Aug. 2, (Delayed).—The British and French and the Germans alike along the front of the battle in Flanders still held their positions late today in an iron grip of bog-land produced by the torrential rain-storm which has been delaying the battle line from Tuesday until today when it showed signs of moderating. Beyond artillery operations which are continuing with great intensity there is little activity with the exception of one or two points and the French and British were resting in consolidated and strongly organized positions commanding the territory which they captured from the Germans in the first few hours onslaught.

St. Julien today continued to be a storm center, the artillery of both sides pounding steadily at their opponents positions about this place. The British were again in possession of the 300 yard front just north of Frezenberg, which the Germans had taken from the British in a counter-attack late yesterday. In a sharp drive last night after heavy artillery preparation the British forced the Germans from this strong position and have held it since. This was the only counter attack of any consequence delivered by the Germans since late Wednesday.

Detailed reports of Tuesday's battle show that the front between Hollebeke and La Basseville was the scene of some of the heaviest fighting of the day, the Australians and English charging along this line swept over large numbers of Germans lying in shell holes were overlooked in the semi-darkness immediately after the British troops had gone beyond these holes the Germans began sniping at the rear of the advancing forces. These snipers were eventually dealt with and the shell holes cleared. The morale of the German troops in this section is said to have been good and they made a stiff fight for the positions which they finally had to relinquish.

In the ruined village of Hollebeke the British were faced with large numbers of concrete dugouts which had no surface entrances but which were approached by tunnels. The attacking troops forced their way into these strongholds which contained large numbers of men and blew them to pieces with bombs. This underground tunnel is still filled with German bodies. Just north of Hollebeke two long held German positions were occupied without a stop. One the ground overlooking Wytshachte the British encountered shell holes, camouflaged with wire netting and hedges which had been interlaced with barbed wire. This delayed their progress somewhat but did not save the Germans. Fierce fighting occurred here and the Australians who were conducting the offensive carried the positions with bayonets, killing large numbers of the enemy.

One notable incident of the day's fighting occurred on the Gapard Farm road at a windmill on a slight elevation. This place previously had been bitterly contested because it overlooked the surrounding country which is very flat. The Australians

took the place in the early morning but the Germans regained it the same night. At midnight the Australians charged the position with bayonets and ejected the Germans after sanguinary fighting. La Basseville was also the scene of severe fighting and here, as at Hollebeke were found concrete dugouts which are now filled with their dead defenders who were bombed.

TANLAC STORY BY MR. CARL HANDEL

Well Known Newark Man Throws Light on Master Medicine For Friends' Benefit.

Carl Handel is a familiar figure about Newark. Most any time during the day he may be seen on his way going hither and thither hauling merchandise for his many patrons. Carl, who lives over at 45 Jefferson street, and who has been on the sick list for a time, is feeling fine and dandy now and gives Tanlac all the credit for his splendid health he now enjoys. He stated to the Tanlac man Thursday:

"I had been much run down and out of condition all spring and summer. I did not sleep well, had very little appetite, and at times was extremely weak and nervous. Often when I'd take a few bites of food, I would begin to bloat and turn sick at my stomach. Dizzy spells came pretty regular and my head ached every day."

"Since taking Tanlac I feel like a new man. Just a few doses settled my nerves and gave me an appetite. I began to sleep fine and could eat all I wished and never have the slightest touch of indigestion. Nothing could make my stomach sick now. I haven't felt dizzy since I began taking Tanlac and am getting stronger every day."

"I feel well paid for the help Tanlac gave me in fighting off the heat, it nothing more."

Tanlac, the new vegetable tonic, stomachic, appetizer, combatant and invigorant is being specially introduced at W. A. Erman's Arcade drug store, where the Tanlac man gives the particulars to steadily growing crowds daily. Tanlac may also be procured at the Evans' pharmacy, Warden hotel block, east side square, Newark.—Advertisement.

MANIFESTO MAKES FINNS MASTERS OF THEIR OWN FUTURE

(ASSOCIATED PRESS TELEGRAM) Petrograd, Aug. 2.—(Delayed).—The provisional government has refused to acknowledge Finland's independence and has instead issued a manifesto dissolving the landtag and appointing a general election on October 1 declaring that the government when the landtag meets will pass its own law regulating Russo-Finnish relations.

The manifesto, which is signed by all ten ministers, expounds the provisional government's contention that Finland enjoys independence only within the limit defined by her constitution, the essential fact of which is the position of the emperor as grand duke, which has now passed to the provisional government. The independence law, the manifesto says, not being submitted for the sanction of the provisional government as the authority invested with the former grand duke's right of sanction, is unconstitutional and further declares that the government cannot "recognize the Finnish landtag's right arbitrarily to seize the freedom of will of the coming constituent assembly."

The fate of Finland can be decided only in agreement with the Russian people, the manifesto declares.

The minister for Finland took the manifesto to Helsingfors and delivered to Governor General Stakovich, who read it to the senate, after which he made a friendly speech in which he said:

"This manifesto is the most democratic action yet performed by the revolutionary government for it makes Finland's people masters of their own destiny."

The landtag is expected to decide its course of action tonight. The Socialist majority threatens to defy the manifesto and continue in session while the non-Socialist expect to obey it. It is stated that the members of the high court have telegraphed to Helsingfors declaring that they would refuse to administer any future landtag enactments passed under an unconstitutional independence law.

NEW YORK HEAT WAVE

BROKEN; MANY OVERCOME

(ASSOCIATED PRESS TELEGRAM) New York, Aug. 3.—The heat wave, which has held New York in its grip for the last four days and exacted a toll of deaths running into the hundreds, has been broken, the local weather bureau announced today. Cooler weather and showers were forecast for today.

The board of health and hospital officials were getting back to normal conditions. Only an estimate of the number of cases of heat prostration in the last four days could be made today. Every hospital in greater New York kept its ambulances going almost continuously, while hundreds were treated in drug stores and private homes of which no records are available.

NEW LIBERTY LOAN IS SET FOR NOV. 15

Washington, Aug. 3.—The second Liberty loan—for \$3,000,000,000—will be launched November 15, treasury officials said yesterday.

Before that time it is planned to issue nearly a billion dollars in treasury short-time certificates to meet immediate needs. The first Liberty loan was for \$2,000,000,000. To sell the second Liberty loan bonds a campaign is being planned which will overshadow the organization and publicity which made the first bond sale such a great success. The interest rate probably will be 4 per cent.

MARTINSBURG

M. E. Brandon, who has been superintendent of the schools here the past four years, has resigned, and will go to Defiance county to accept a position as district superintendent. Mr. Brandon has been active and successful in his work and the patrons and the community in general will regret to see him leave.

Mrs. James Kidd suffered a stroke of paralysis Wednesday morning and is lying unconscious.

Andrew Mavis, a well known resident of Jackson township, was buried here Wednesday afternoon, the funeral taking place at the Presbyterian church with interment in the adjoining cemetery.

The children and grandchildren of Mrs. E. Hess met at her home here Sunday and spent the day.

The families of William Beatty and T. L. Beatty together with the Frye family of Hennepe spent Sunday at Baughman Park.

S. S. Simpson, who was taken to the hospital at Mt. Vernon suffering with acute indigestion, is better.

Mr. and Mrs. Charles Shrontz of Union Grove spent Sunday with Mr. and Mrs. B. E. Smith.

Miss Pearl Cullison returned from Defiance college Monday where she attended summer school.

NEW WAY TO REMOVE HAIRS CREATES SENSATION (Actual) Takes Out The Roots

What beauty specialists regard as one of the most important discoveries in recent years is the effective method of removing superfluous hair. Its great advantage, of course, lies in the fact that it actually removes the hair roots. It does this easily, instantly, painlessly. Sufferers from the affliction named need no longer despair. The actual hair-roots come out before your very eyes leaving the skin as smooth and hairless as a babe's.

Because it offers such complete relief, a stick of phaeo-gel is the most inexpensive thing a woman can buy for the removal of hair growths. For the same reason druggists do not hesitate to sell it under a guarantee. Guaranteed. You can use it with entire safety. It is so harmless one could even eat it without any ill effect.

PROMINENT SOCIETY WOMAN AGAIN LEADS

ALL HER FAMILY AND A HOST OF FRIENDS PLEASED.

For a long time she made an uphill fight against a bad case of nerves and ill health. Doctors, Sanitariums and Medicines had been tried without any improvement. Still she was a plucky little woman and did her best to brace up and appear cheerful on account of the family though she gradually kept growing from bad to worse to the dismay of her husband and children.

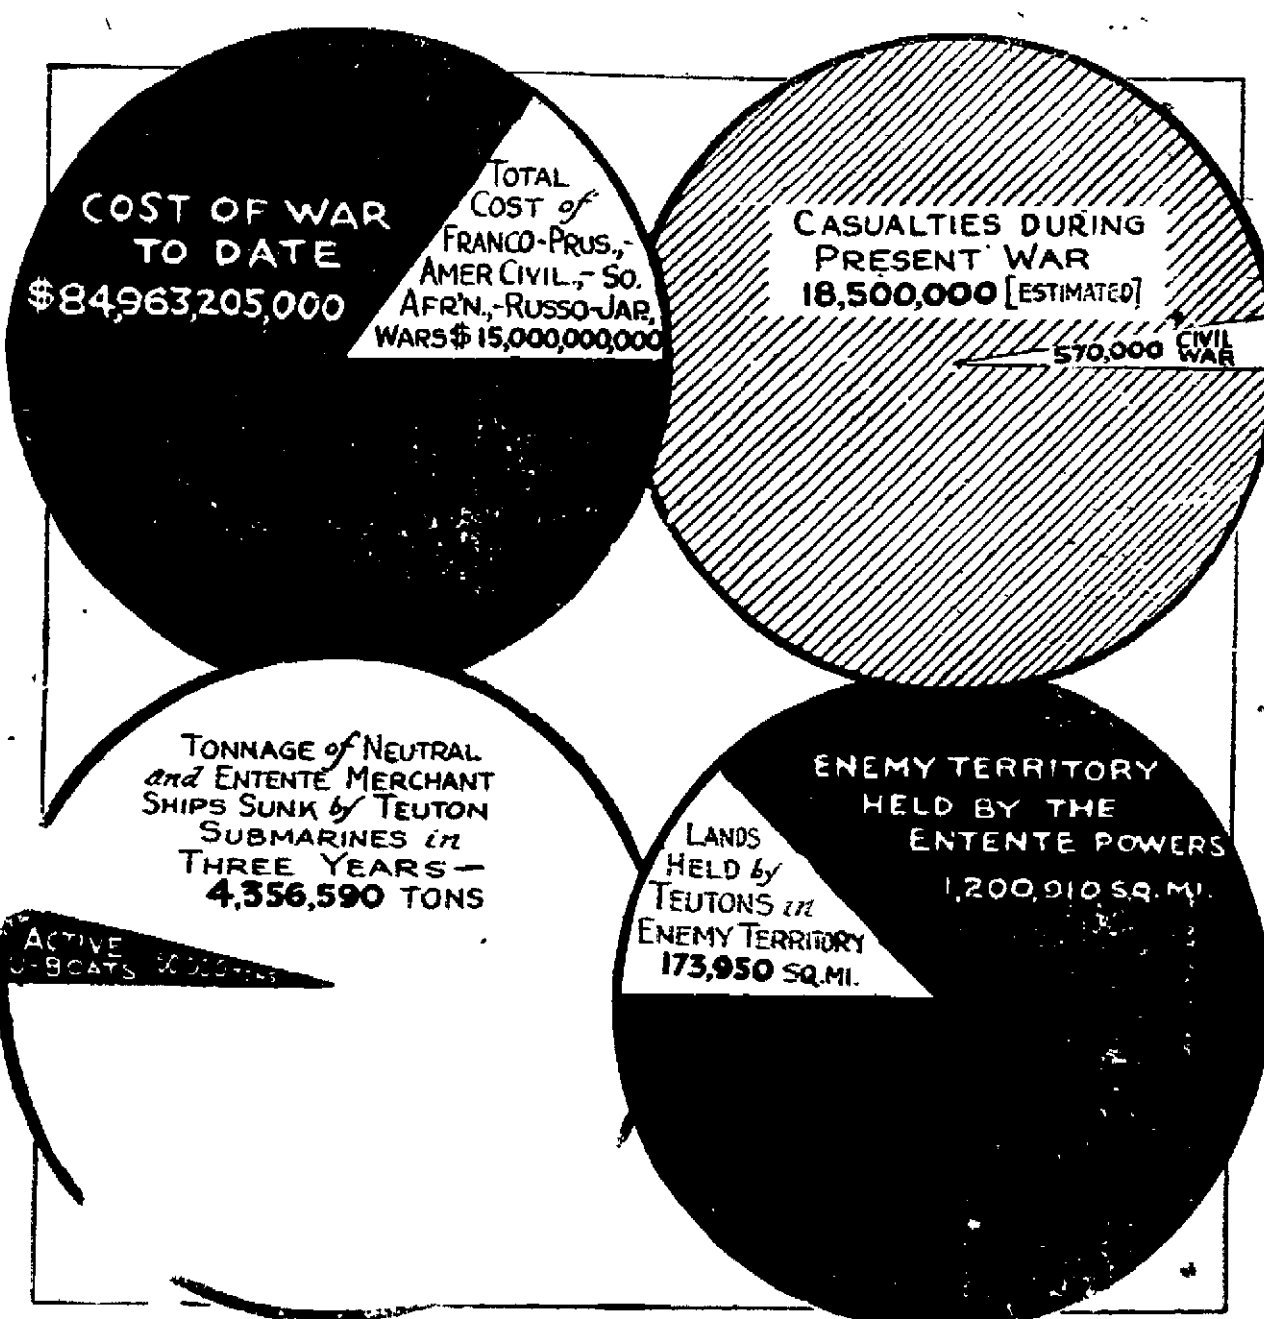

Things were indeed looking tough when the housekeeper said to the husband: "I am going to break my rule and butt into family affairs for once even if I lose my job for I firmly believe that the trouble with the mistress is that she has gone the 'Social Whirl' so hard she is all run down and her blood and nerves need the same medicine I took. Do you remember my condition last spring? I took Phosphated Iron and believe me it made a new woman of me in short order and I wish you would try it for the misses."

Ready to try anything the husband phoned to his druggist for a box and in a few days the whole family noticed the improvement. It just seemed as if the woman's whole body was starving for Phosphorus, and iron the way it took hold, her cheeks filled out, had a healthy rich color, appetite returned and she had more strength and vitality than in years, and absolute freedom from all nerve trouble, slept like a top.

The same story can be told by hundreds of men and women who have experienced the benefits of Phosphated Iron. Every doctor will tell you that you must have plenty of iron and phosphorus in your system if you want healthy, strong bodies and nerves. Get a box of Phosphated Iron today and make a fresh start, feel like doing things once again.

Special Notice—To insure your receiving the genuine Phosphated Iron we have put up capsules only. Do not allow dealers to substitute tablets or pills. Evans Drug Store, Newark, O., and leading druggists everywhere (Advt.)

THIS DRUGGIST'S TEST TURNED OUT WELL FOR OTHERS

Nerv-Worth Wonderfully Overcomes Intestinal Ills Due to Vegetable Eating.

One of the many Nerv-Worth druggists, who sell this superlative family tonic in the Pittsburgh, Pa., section has found by a careful personal test that Nerv-Worth is the best medicine he has ever taken to overcome colic, cramps, dysentery and the other summer complaints which so often follow the eating of fresh vegetables. Having proved Nerv-Worth's power to do this he is urging fellow-sufferers among customers and friends to follow his example, with the result that Nerv-Worth sales in that city are breaking all records. This is no new point in Nerv-Worth's favor. It is an old story, attested to by many signed statements.

Nerv-Worth has no equal as a hot-weather tonic. It steadies the nerves, whets the appetite, digests the food, restores restful sleep, regulates the bowels, rouses the liver, banishes sick and nervous headaches and other aches and pains, builds up rundown systems. If it does not do this for you your dollar back at the T. J. Evans drug store, Newark.

At Hebron, the Hebron Drug store sells Nerv-Worth; at Utica, the Utica Drug store; at Granville, W. P. Lillman; at Johnstown, C. S. Howard.

COOK GONE.

Have you ever been away for a day or two and come home and found that the cook had left? It may be that she had a reason. She was not there anyway. You will not have trouble to keep a cook if you have the right kind of coal for her to use. There is not a cook living that does not like to use that good coal "DIXIE." Why? Because she has no trouble to start the fire and once it is started she has the least trouble to keep it going. The oven is always kept at the right temperature and above all else the coal is the cleanest. Try DIXIE that CLEAN coal the next time. It may solve your problem of the cook. NEWARK BOYS IN FINE SHAPE AT FORT HARRISON

(Special to Advocate.)
Fort Benj. Harrison, Ind., Aug. 3.—Recommendations for commissions have gone to Washington and the men in the officers' training camp are looking forward to the result with no little interest. There has been no intimation given as to the award of commissions, but the men are positive that merit alone will determine the matter. It has been a three-months' period of hard work. The men have gone to it cheerfully and enthusiastically and many think they may not obtain commissions now, have applied for membership in the second training camp which opens the latter part of this month.

On Thursday the boys of the Ohio camp had a 10-mile hike, carrying the regulation outfit. They suffered no great inconvenience as their strenuous training prepared them for it.

Besides the U. S. T. C. men, many regulars and former guardsmen are in camp here. In the artillery camp are many from Ohio, including about 50 Newark men.

"We have not had as much drill with the guns as we would like," said one of the Newark fellows today, "owing to the fact that the men in training for artillery officers' commissions have been using them. But in spite of that the boys are becoming better acquainted with the various duties."

It certainly is a pretty sight to see the guns and caissons going into position pulled by six horses each. If they are going very fast the men haven't any time for pink-tea parties or any other social function, but devote their thoughts to staying on the carriages. They keep their eyes on the executive officer for arm-signals, and when the command, "Action! Right, left, front, or rear," whichever the case may be, is given, they leap to the ground and unlimber the carriages so the horses can be taken to the rear out of the range of an imaginary enemy. The command, "Action!" is usually given while the horses are going at a stiff trot, but frequently it is given while they are going at a gallop, and the men have to be careful in leaping to the ground. They are taught that seconds count, and for that reason don't wait until the horses have stopped.

Near the camp is an artillery trench, which daily attracts sightseers. It is being arranged so as to be invisible not only to an enemy on the ground, but also from the air.

Camp-life certainly agrees with the boys. All of them are in the best of spirits, and the majority seem to be anxious for the time when they can stand behind their guns and send messages to the Germans.

Unless they have a pass they are required to be in bed at 9:45, when they are checked up. At 9 p. m.,

tattoo is sounded, which means that all noise must cease, and at 9:30 (taps) all lights must be out, except those who have permission to burn a candle while attending to some duty. There is plenty of time to gossip on Saturday afternoons and Sundays. Nearly every Sunday there are visitors from home. Visitors are welcome, not only because they are loved-ones, but because they bring home-made cookies and tobacco. The Newark fellows greatly appreciated the large box of tobacco recently received from some of their friends back home.

BUY BONDS.

Every one will advise you to buy bonds, especially bonds of a known value. There are none in our estimation better than the 5-1-2 and 6 per cent. Municipal bonds of today. In these you secure a high return for the money you invest and are protected by the property of the city that issues them. For all the property of the city is held as security for the payment of the bonds that are issued by that city. Mr. D. H. Pigg, 703 Trust building, representing the Security Municipal Bond Company is selling many Newark people municipal bonds. They know they are good. If you have a few dollars to invest see Mr. Pigg, 3-d-1t

SPIRITED REPRODUCTION OF THE "MARSEILLAISE"

The "Marseillaise" is truly a most soul-stirring air and Frances Alda has made a splendid Victor record of it which has just been issued in the Victor lists. One can feel that the impetuous melody, the torrential words, have liberated her intense, emotional nature so that she has attained the poetic heights of rhapsody, and a fitting climax is reached as the Metropolitan Opera company chorus of mixed voices joins in the magnificent refrain. Louise Homer gives a new beauty, an added meaning, to the perennial favorite "Love's Old Sweet Song" by her superb rendition; and as John McCormack sings "There's a Long, Long Trail" it seems as if surely that glorious land of dreams into which the long trail winds may some day be reached.

HOT OR COLD.

Don't need a furnace now. No! It's warm enough just now, but how about next winter when the snow is falling and the mercury drops to near zero. Yes it would be nice. Then why delay putting in that furnace until fall when we are too busy to get to your home and the weather is cold and the work can not be pushed as fast as it can now. A Boomer furnace will help you to economize on your fuel bill and besides it will heat your whole house at the cost of heating one or two rooms as you do now with stoves. Then it is so much cleaner than a stove. J. D. Keeler, 103 W. Main street would like to talk it over with you. 3-d-1t

DR. MONTGOMERY RESIGNS POSITION IN MEDICAL SCHOOL

Dr. E. E. Montgomery, who is in the city the guest of his sister, Mrs. E. T. Johnson, Hudson avenue, has recently resigned his position as professor in Jefferson Medical College, Philadelphia.

Dr. Montgomery is the son of the late H. A. and Mary E. Montgomery, and was born in Granville street, in the old Harrison home, now the Hermann residence. He was a graduate of Denison University, class of 1871, and in 1874 was graduated from Jefferson Medical College, returning to that institution as professor for 25 years, after spending a year as interne in the Philadelphia hospital.

When the college closed in May, the Philadelphia Ledger, Bulletin and North American contained articles both in news columns and editorial pages, containing the retirement of Dr. Montgomery from the chair of gynecology. Students of the college gave him an unusual tribute on his farewell appearance before his classes.

The Bulletin said in its editorial column: "There will be general regret over the resignation of Dr. Montgomery, his services as a guide and instructor to embryo medics in the Jefferson and Medico Chirurgical College have covered 31 years, and they have gone forth the world over to save life according to his teaching."

Dr. Montgomery will continue his private practice, and his work has been such to give him a wide reputation. He has written many books showing an unlimited knowledge of his profession.

SEEK ENLISTMENTS FOR DRIVERS OF FRENCH TRANSPORTS

France asks to have the transport service taken over. There are a hundred and sixty-five thousand men now in this service. These men who are familiar with trench warfare will be put into the trenches as fast as the American volunteer drivers can take their places. This service gives the American a chance to be at the front in a few weeks time. Many men are capable drivers and will be given immediate service. A three week's instruction course is given in Paris. There are now over three thousand American volunteers in this service, and a hundred and twenty of these men have been awarded the Croix de Guerre by the French government. Two American boys have received the Medaille Militaire which is the highest honor the French can give a soldier. These

are the first Americans to receive this medal.

Mr. W. K. Varney is now in Newark representing the American Field Service. Men who are interested in this work will find Mr. Varney at the Sherwood hotel. The American field service was organized in 1914 and is dependent upon subscription and donations for its support. All men in this service are volunteers and must pay their own expenses. It costs them \$150 to enlist a man. This pays his transportation and allows him fifteen dollars a month while in service. Many of us who cannot go into service will feel keenly the good of the cause. Personal donations can be sent to Mr. Edward C. Wright, treasurer American Field Service, First National Bank, Newark.

On August 11th a tag day will be held in Newark for the benefit of the American field service. It is hoped all will contribute as freely as possible to go worthy a cause.

RED CROSS SHIPS BIG QUANTITY OF HOSPITAL SUPPLIES

The local chapter of the Red Cross yesterday shipped five boxes of supplies which contained the following finished materials:

629 3-inch muslin bandages.
84 4-inch muslin bandages.
204 abdominal binders.
372 slings.
120 T binders.
84 head bandages.
54 suits of pajamas.

This represents 752 yards of muslin and 450 yards of outing flannel, and includes the products of all the work rooms in the county. There is much finished material yet to be shipped which is being done as rapidly as possible. The auxiliaries in the county are doing particularly commendable work, again demonstrating that the county can more than uphold its share in the Red Cross activities.

There is still a great need of workers at the High school as far more supplies will have to be made to fill the demand.

Perhaps it isn't so bad to waste time if you really know it belongs to you.

A VACATION TRIP ON A FREIGHT STEAMER

Via Northwestern Steamship Company's Steel Steamers

From CLEVELAND, OHIO, to GLADSTONE, MICHIGAN and Return, with Five-Hour Stop at Historic Mackinac Island. Six-Day Cruise

Round Trip, \$37.75
(Children under 12, half fare)

Including meals and berth. No extras. The accommodations are fully up to the best passenger steamers. Each stateroom is an outside room, lighted by electricity, has running water and a double lower and single upper berth. The saloon is roomy and comfortable, a smoking and card room is convenient, and the large dining room extends the full width of the ship, with observation windows on each side that permit a perfect view of the passing scenery as one dines. A promenade deck extends completely around the ship—seven times around makes a mile.

THE TABLE

The meals are unusually good on the Lakeland. The galley is roomy and properly fitted out and is in charge of old and experienced chefs. Fresh fruits, vegetables, poultry, eggs, butter and meats are secured from our own stores in Gladstone and Cleveland. We buy only the best the market affords; but, it is of our fish that we are proudest. We have arranged with fishermen on Lake Erie and Lake Michigan, to pull their nets just before leaving time of the boats, so that our passengers may have fish just out of the water.

Steamer Lakeland, N. W. S. S. Co. Equipped with Wireless

Round Trip, \$37.75
(Children under 12, half fare)

The Steamer Lakeland, is a staunch steel freight steamer of the most modern design. She carries general merchandise on the up-trip, and four from the Minneapolis and St. Paul mills on the down trip.

As the passenger business of this company is a by-product of their freight traffic, the steamers of this line do not require additional crews for the handling of passengers, thereby making it unnecessary to draft men from productive industries during the war.

FEATURES

A piano and viols are maintained on the Lakeland for the pleasure of the passengers and dancing is indulged in every evening.

For those who desire to take trips while the boat is at Gladstone picnic lunches will be furnished.

Automobiles, motor-boats and sail boats can be obtained at Gladstone at moderate rates.

Remember—\$37.75 Covers Everything for the Six-Day Trip. Children Half Fare

This is one of the most delightful trips in the world. The steamer leaves Cleveland on sailing dates at 11:00 P. M. The Cruise takes the passenger through Lake Erie, the Detroit River, Lake St. Clair, The Flats, justly termed, "The Venice of America," and on up the beautiful St. Clair River, past Port Huron and through the St. Clair Rapids into Lake Huron, second largest body of fresh water in the world. Early morning finds the ship passing the bluffs of Thunder Bay and entering the Straits of Mackinac. A stop of five hours is made at historic Mackinac Island. Leaving the island at 6 P. M., the site of old Fort Michilimackinac on the mainland is quickly passed. Just across the Straits is St. Ignace, the spot where Marquette established his first mission. Past the Garden Islands and Beaver Island the ship goes in the night, and morning discovers the entrance to Green Bay. This is an entrancing sheet of water. On its west shore, and guarding the entrance to Little Bay de Noquet, is Escanaba, the great iron ore and lumber shipping port. Seven miles up the bay, and reached by a tortuous channel and protected by towering hills, is Gladstone, the northwest terminus of the Northwestern Steamship Company. This is the summer country par excellence. Hay fever is unknown, and the pine-laden ozone produces the most restful sleep. It is the fisherman's paradise. Trout abound in the swiftly flowing streams, while bass rise to the fly. Along the shallows of the Bay, pike and pickerel are so plentiful that large strings are caught from the docks on the Gladstone Bay front. Across the bay from Gladstone and quickly reached is Maywood, the most beautiful resort on Lake Michigan. Bathing, picnicking, sailing, motoring, and fishing keeps one busy while the ship is discharging and taking on cargo. A dance is given on shore the night the boat is at Gladstone. Just a few minutes street car ride from Gladstone is Escanaba, a city of 20,000 people.

The Lakeland leaves Gladstone at 3 P. M. the second afternoon and passes through the Straits of Mackinac, the St. Clair and Detroit Rivers by daylight, arriving in Cleveland at 3 P. M. the sixth day.

This Will Make a Vacation Trip Long to be Remembered
Make reservations early. The boat leaves Shepherd's Dock, 1078 West 11th St., Cleveland, at 11 P. M., Monday, July 2; Wednesday, July 11; Friday, July 20; Sunday, July 29; Tuesday, Aug. 7; Thursday, Aug. 16; Saturday, Aug. 25. Passengers may come aboard at 9 P. M.

JAPAN IS RESPONSIBLE FOR UNREST IN CHINA SAYS DR. CHEW IN HIS LECTURE

The second evening of the Chautauqua had for its entertainers the first part of the program Mr. and Mrs. Regniers, who delighted their audience with music and conversational sketches. Mr. Regniers' Jewish impersonations met with applause and his "Country Boy, Hank" was one of the best ever presented.

His third impersonation was that of Silas Haskins and he created no little laughter when he appeared in the audience, asking Mrs. Regniers to sing an old-fashioned song instead of an opera number. "Silas" was then invited to the platform and sang, "When You and I Were Young, Maggie," which was greatly appreciated.

Mrs. Regniers used Eugene Field's "Poppy Land Express" as a piano-ologue. It is a quaint little poem, and Mrs. Regniers' own composition or music added greatly to its sweetness.

As a closing number the Hawaiian National Hymn "Aloha Oe" was sung, which interpreted is "Farewell Peace be With Thee." Mr. and Mrs. Regniers were called back and asked the audience to join with them in singing "America."

Following the Regniers, members of the crew and Miss Regniers were introduced to the audience, and then Dr. Ng Poon Chew was called, who was the lecturer announced for the evening.

Dr. Chew's subject was "An Awakening Nation" and said in part:

"I have lectured to many peoples, Chinese, Korean, American and many others, but I like the American audience best; you are so sympathetic, so generous, so responsive—so handsome."

"The Chinese government can take care of the internal situation in the country; the most critical part of it all is the attitude of Japan; Japan does not want China to become settled. Japan is an ambitious country while China is peaceful, and those who have studied the situation know that it is at the instigation of the Japanese that the uprisings occur in the Orient."

"There is no fear of the monarchy being restored. The real democratic party did not want war."

"The unsettled condition of China has brought about the suppression of opium. In 1897 it was forced upon China by England and used first for medicinal purposes; but early in the 19th century it began to be used as a drug, and in spite of the law, England smuggled opium into China, but on June 7, the last pipe of opium was smoked."

In his lecture Dr. Chew told of the work done by missionaries and said they were a credit to the countries which sent them.

He deplored the war situation but said there would be no kings or kingdoms after the war was over—

they would have to give up their soft jobs and go to work.

It was announced that beginning to night the evening entertainments will open at 7:30 o'clock.

One of the headline events of the Chautauqua week will be given tonight when the light comedy opera, "Dorothy," will be presented. The opera had three successive and successful seasons in London, and the company appearing tonight is the same as that which appeared in New York and Boston. J. K. Murray and Clara Lane are the stars, and they have been in light opera in New York City before playing with the "Dorothy" company. The other members of the cast are all experienced players, one member having been with the "Have a Heart" company this winter.

A feature not usual with Chautauqua numbers is the scenery which the company carries. A special car is needed to carry it.

Four years ago the same company spent two seasons in Chester Park, Cincinnati, and later at Norwell, when many Cincinnati people went to hear them again.

Saturday afternoon and evening the Metropolitan Artists are to appear in concert work, including Mary Welch, soloist, Agnes Bodholdt, pianist, and Jo Polak, cellist. Mr. Polak is the possessor of a cello which was given him by the Queen of Holland, and it is over 150 years old. It is valued at \$10,000. Mr. Polak is the leading cellist with the Chicago Symphony Orchestra.

Following the concert, Newark will have the pleasure of hearing Dr. Charles E. Barker, who has been physical adviser to President Taft, Chief Justice White, and several other prominent men. Dr. Barker's afternoon subject is "The Finest of Fine Arts," or "How to be Always Happy," and in the evening another health talk on "How to Live 100 Years."

Dr. Barker is a graduate of Denison University in the class of 1893, and his daughter, Miss Juliet Barker, has been attending Denison, and next year would rank as a senior, but expects to enter the University of Michigan in Ann Arbor, in the fall.

The Barker home is in Cambridge.

REV. B. D. EVANS ON IMPORTANT MISSION TO ALLIED NATIONS

Rev. B. D. Evans of Athens, son of Captain John A. Evans of Frazeyburg, has been honored with an important clerical mission to the Entente allies and will sail for Europe just as soon as his passports are received.

Rev. Evans will be the personal representative of Bishop Anderson of the Methodist Episcopal church and will act for the bishop in all church affairs in the allied nations.

It is probable that he will be stationed in Europe until the end of the war. The appointment is a high honor which has been worthily bestowed, as Rev. Mr. Evans is recognized as one of the ablest men in the M. E. church today.
